Accelerating Drug Development: How QbD, Regulatory Partnerships, and Pandemic Learning Can Further Expedite Meeting Patient Needs

Barbara Rellahan MS, PhD
Executive Director, Quality, Product
Quality
Amgen, Inc

Dr. Rellahan holds a MS in Cell Biology and a PhD in Immunology. She performed a post-doctoral fellowship in the Laboratory of Immune Cell Biology, National Cancer Institute, NIH, and joined the Division of Monoclonal Antibodies (DMA), Office of Biotechnology Products (OBP), FDA in 1995. At the FDA Dr. Rellahan held several positions of increasing responsibility including research, and regulatory review positions. She joined Amgen in 2013 and helps oversee a group of Product Quality Leaders with product quality oversight of Amgen biosimilars and innovator molecules including ownership of product specifications, stability and comparability.
