E-mail: jia.liu2@pfizer.com

Jia got her PhD degree in statistics from Iowa State University. She has worked as a CMC statistician in Pfizer since 2013. Jia has substantial knowledge and experience in analytical method development, bioassay evaluation, reference material bridging, assay validation and transfer. She has successfully supported multiple CMC regulatory submissions. Jia is also interested in Bayesian methodology, machine learning, design of experiments, and linear-mixed models.
