Kristi L. Griffiths received a doctorate in statistics from Virginia Polytechnic Institute and State University in 1995 and joined Eli Lilly and Company to support pharmaceutical product development. She has provided technical contributions for numerous product development programs and has been instrumental in the design and implementation of the Lilly Quality by Design strategy. She is currently a Research Fellow and serves as the statistical advisor for the bioproduct portfolio. Kristi actively served on the International Pharmaceutical Aerosol Consortium on Regulation and Science (2000-2006) and the USP Statistics Expert Committee (2005-2010). More recently, she has served on the IABS Statistics Workshop Scientific Organizing Committee since 2014 and is also an associate editor of the ASA Biopharmaceutical Report.
