Biological Standardization

## IABS 2021 Conference

*Bayesian methods in CMC 6 has the time come for a regulatory guidance*

**Paul Faya**

Eli Lilly and Company

Paul is a Principal Research Scientist at Eli Lilly and Company, providing statistical support for biopharmaceutical product, process, and analytical development. He has been working in the CMC field for over 10 yrs in both R&D and manufacturing. Paul is passionate about the use of Bayesian methods to enhance decision-making and is currently the chair of the ASA-DIA Nonclinical Bayesian Working Group. Paul specializes in bioassay development as well as methods for leveraging historical knowledge. He holds a PhD in Statistics and an MBA from Baylor University.
