Ken Kono is Chief of Viral Safety Section in the Division of Cell-Based Therapeutic products, National Institute of Health Sciences (NIHS), Japan. He received his Ph.D in Medicine from Osaka University in 2010. He is responsible for viral safety of cell-processed therapeutic products and working in several projects on assessment of viral safety assays using Next-generation sequencing.

Prior to joining the NIHS in 2011, Kono worked at Osaka University where he conducted basic research on host factors involved in HIV replication.
