Jean-Luc Guérin, DVM, PhD, Dipl. ECPVS

Professor in poultry medicine and Director
of the “host-pathogens interactions”

UMR IHAP, INRAE-ENVT

Jean-Luc Guérin, DVM, PhD, Dipl. ECPVS, is full professor in poultry medicine at the National Veterinary College of Toulouse, France and Director of the “host-pathogens interactions” joint research unit (INRAE-ENVT), covering virology, prions, bacteriology, immunology and epidemiology of infectious diseases in animals, in a *One Health* perspective.

His own research is focused on viruses of poultry, and for some years, pathobiology of highly pathogenic avian influenza. A priority is the development of innovative approaches of viral detection, including from environmental samples and at the wild birds/poultry interface. Since 2016, his research has been very much directed toward the emergence of H5 HPAI and recently, to the scientific support of the National vaccination plan implemented in France.

Jean-Luc Guérin authored 100 original international papers, >200 communications and chapters of textbooks in the field of poultry virology and medicine.
