I am a poultry veterinarian with more than 20 years of experience, with a passion for animal welfare and food safety with extensive experience within the technical and commercial sectors.

I obtained my DVM from University of Veterinary Medicine in Slovakia and after graduating I decided to work towards a Ph.D. in Veterinary Medicine Science completing my studies in 2004. I am a Member of the Royal College of Veterinary Surgeons in the United Kingdom.

Since 2019 I have been with Almarai, in Saudi Arabia, one of the largest fully integrated agricultural companies in the world as Group Veterinary Manager, in my role I bridge the gap between scientific and technological advancements and our day-to-day production, along with managing and developing a team of veterinarians whose primary goal is to tackle the day to day challenges, enhance animal health and welfare, and ensure the safety and quality of our products.
