

Titles - Karger Volumes

Association International de Standardization Biologique

Symposium 1962: Vaccination antivariolique

Association International de Standardization Biologique

Symposium 1964: Standardization des vaccines

contre la rougeole et la serologies de la rubeole

Progress in:

Immunological standardization, No. 1, 1964

Immunological standardization, No. 3, 1967

Immunological standardization, No. 4, 1968

Symposia Series in Immunological Standardization

Volume Name / N°

Neurovirulence of viral vaccines - Munich

2

1965

Immunological methods of biological standardization - France

4

1965

Laboratory animals - Royal society of medicine, London

5

1966

Adjuvants of immunity - Rijks Institute

6

1966

Combined vaccines - U. of Marburg, Germany

7

1967

Variants on immunity - Institute Mérieux, Marcy

8

1967

Pseudotuberculosis - Institut Pasteur

9

1967

Biological assay methods - Pharmaceutical society of GB, London

10

1967

Rubella vaccines - Institute of Child Health, London

11

1968

Pertussis - Rijks Institute

13

1969

Interferon & interferon inducers

14

1969

Enterobacterial vaccines - Bern

15

1969

Anti-lymphocyte Serum - Versailles

16

1970

BCG Vaccine - Frankfurt

17

1970

HL-A reagents - Copenhagen

18

1972

Smallpox vaccines - Rijks Institute

19

1972

Influenza vaccines for men and horses - Institute of Child Health, London

20

1972

Rabies II

21

1972

Requirements for popultry virus vaccine - Lyon

25

1974

Developments in Biological Standardization

Selected veterinary vaccines - Budapest	26	1973
Purity of human plasma proteins - Budapest	27	1973
Standardization & control of allergens administered to man - WHO, Geneva	29	1974
Viral hepatitis - Milan	30	1974
Brucellosis II - Rabat	31	1975
Closteridial products in veterinary medicine - OIE, Paris	32	1975
Vaccination of man & animals by non -parenteral route - Isle of Man	33	1975
Pyrogenicity, innocuity and toxicity test systems for biological products	34	1976
Food & mouth disease II - Lyon	35	1976
Freeze-drying of biological products - Washington	36	1976
Standardization of cell substrates for the production of virus vaccines - WHO, Geneva	37	1976
Influenza immunization - WHO, Geneva	39	1977
Standardization of rabies vaccines for human use produced in human culture (Rabies III) - Germany	40	1977
Vaccinations in developing countries - Guadeloupe	41	1978
2nd General meeting of the European Society of Animal Cell Technology - Paris	42	1978
Immunization benefit vs. Risk factors - Catholic University, Leuwin	43	1978
Test methods of quality control of plasma proteins - Switzerland	44	1979
The standardization of animals to improve biomedical research: production & control - Texas	45	1979
3rd General meeting of the European Society of Animal Cell Technology - Oxford	46	1979
Reassessment of inactivated polio vaccine - Rijks Institute	47	1980
Standardization of albumin - plasma substitutes & plasmapheresis - Geneva	48	1980
Fish biologicals: serodiagnostics & vaccines - West Virginia	49	1981
Heteroploid and other cell substrates for the production of biologics - Heidelberg	50	1981
Immunization of adult birds with inactivated oil adjuvant vaccines - Lyon	51	1981
Herpes virus of man & animal: standardization of immunological procedures - Lyon	52	1981
Enteric infection in man & animal: standardization of immunological procedures - Dublin	53	1982
5th General meeting of the European Society of Animal Cell Technology - Copenhagen	55	1982
Brucellosis - Algiers	56	1983
Monoclonal antibodies: standardization of their characterization and use - Paris	57	1983

BGC vaccines & tuberculins - Budapest	58a	1983
BGC vaccines & tuberculins - Budapest	58b	1983
Standardization & control of biologicals production using recombinant DNA technology - Gebeva	59	1983
Pertussis - Geneva	61	1984
Diagnostics & vaccines for parasitic diseases - Stockholm	62	1985
Use and standardization of chemically defined antigens - San Francisco	63	1985
Reduction of animal usage in development & control of biological production - London	64	1985
Use and standardization of combined vaccines - Amsterdam	65	1985
Advances in animal cell technology & cell engineering, evaluation & exploitation - Baden, Austria	66	1985
Standardization in blood fractionation including coagulation factors - Melbourne	67	1986
Cell products safety - WHO, Geneva	68	1986
Cytokines: laboratory & clinical evaluation - London	69	1987
Continuous cell lines as substrates for biologicals - Arlington / Washington	70	1988
Monoclonal antibodies for therapy - prevention & in vivo diagnosis of human diseases	71	1989
Progress in animal retroviruses - Annecy	72	1989
Pertussis: evaluation & research on acellular pertussis vaccines - Japan	73	1990
Biological production: freeze-drying and formulation - Bethesda	74	1990
Virological aspects of the safety of biological products - London	75	1990
Continuous cell lines - current issues	76	1991
Standardization of the immunopharmacology of natural and synthetic immunomodulators - Annecy	77	1991
Polio virus attenuation: molecular mechanisms & practical aspects - Bethesda	78	1991
The first steps towards an international harmonization of veterinary biologicals: 1993 - and the free circulation of vaccines within the EEC - OIE	79	1992
Transmissible Spongiform Encephalopathies	80	1993
Virological Safety Aspects of Plasma Derivatives	81	1993
Recombinant Vectors in Vaccine Development	82	1994
Genetic Stability and Recombinant Product Consistency	83	1994
Non-Target Effects of Live Vaccines	84	1995
Genetics of Streptococci, Enterococci and Lactococci	85	1995
Replacement, Reduction and Refinement of Animal Experiments in the Development and Control of Biological Products	86	1996
New Approaches to Stabilisation of Vaccines Potency	87	1996

Viral Safety and Evaluation of Viral Clearance from Biopharmaceutical Products	88	1996
Pertussis Vaccine Trials	89	1997
Fish Vaccinology	90	1997
Development of Specifications for Biotechnology Pharmaceutical Products	91	1997
Modulation of the Immune Response to Vaccine Antigens	92	1998
Safety of Biological Products Prepared from Mammalian Cell Culture	93	1998
Simian Virus 40 (SV40): A Possible Human Polyomavirus	94	1998
Preclinical and Clinical Development of New Vaccines	95	1998
Characterization of Biotechnology Pharmaceutical Products	96	1998
Biological Characterization and Assay of Cytokines and Growth Factors	97	1999
Inactivated Influenza Vaccines Prepared in Cell Culture	98	1999
Animal Sera, Animal Sera Derivatives and Substitutes Used in the Manufacture of Pharmaceuticals: Viral S	99	1999
Celebration of 50 Years of Progress in Biological Standardization and Control at WHO	100	1999
Alternatives to Animals in the Development and Control of Biological Products for Human and Veterinary Use	101	1999
Developments in Biologicals		
Advances in Transfusion Safety	102	2000
Physico-Chemical Procedures for the Characterization of Vaccines	103	2000
Development and Clinical Progress of DNA Vaccines	104	2000
Progress in Polio Eradication: Vaccine Strategies for the End Game	105	2001
Evolving Scientific and Regulatory Perspectives on Cell Substrates for Vaccine Development	106	2001
The Design and Analysis of Potency Assays for Biotechnology Products	107	2002
Advances in Transfusion Safety - 2001	108	2002
Biologics 2000 - Comparability of Biotechnology Products	109	2002
Orphan Vaccines - Bridging the Gap	110	2002
Advancing Science and Elimination of the Use of Laboratory Animals for Development and Control of Vaccines and Hormones	111	2002
Immunogenicity of Therapeutic Biological Products	112	2003
Process Validation for Manufacturing of Biologics and Biotechnology Products	113	2003
Vaccines for OIE List A and Emerging Animal Diseases	114	2003
Laboratory Correlates of Immunity to Influenza - A Reassessment	115	2003
Development of Therapeutic Cancer Vaccines	116	2004

Consideration of Alternative Licensing Procedures for Vaccines for Minor Species, Minor Indications and Autogenous/Autologous Products	117	2004
PDA/EMEA European Virus Safety Forum	118	2004
Control of Infectious Animal Diseases by Vaccination	119	2004
Advances in Transfusion Safety	120	2005
Progress in Fish Vaccinology	121	2005
State of the Art Analytical Methods for the Characterization of Biological Products and Assessment of Comparability	122	2005
Vaccine Cell Substrates 2004	123	2006
Avian Influenza	124	2006
Rabies in Europe	125	2006
New Diagnostic Technology: Applications in Animal Health and Biologics Controls	126	2006
Advances in Transfusion Safety - Vol. 4	127	2007
OIE Reference Laboratories and Collaborating Centres	128	2007
Aquatic Animal Health	129	2007
Vaccination: A Tool for the Control of Avian Influenza: Joint OIE/FAO/IZSVe Conference, Verona	130	2007
Towards the Elimination of Rabies in Eurasia :Joint OIE/WHO/EU International Conference, Paris	131	2008
Animal Genomics for Animal Health	132	2008
Vaccines and Diagnostics for Transboundary Animal Diseases: International Symposium, Ames, Iowa	135	2013
