

Jean-Christophe AUDONNET

DVM and holds a Ph.D. in Molecular Bacteriology and a Molecular Virology degree from Pasteur Institute Paris

Jean-Christophe AUDONNET is a DVM and holds a Ph.D. in Molecular Bacteriology and a Molecular Virology degree from Pasteur Institute Paris. After 3 years at Virogenetics (Troy NY, USA) he was in charge of multiple research and innovation responsibilities from 1992 until 2021 at Rhône Mérieux, then Merial and lastly at Boehringer Ingelheim Animal Health (vaccinology, immunology, technical platforms for protein expression). Along these internal and external R&D collaborative partnerships, he built a strong international experience (USA, Canada, Europe, China, Singapore).

Jean-Christophe Audonnet has been the Coordinator of the European project IMI ZAPI (March 2015 - July 2021) (www.zapi-imi.eu). He is now retired from industry and provides scientific and technical consulting support.
