

IABS organized, sponsored or co-sponsored conferences

Conference name	Place	Day/Month/Year
	2000	
Biologics 2000: Comparability of biotechnology products	Washington, U.S.A.	4-7 June, 2000
Progress in polio eradication: vaccines strategies for the end game	Paris, France	28-30 June, 2000
The design & analysis of potency assays for biotechnology products	Potters Bar, England	5-6 October, 2000
	2001	
Immunological applications of synthetic peptides	Lyon, France	9-11 May, 2001
Advances in transfusion safety	Langen, Germany	7-8 June, 2001
Orphan vaccines- bridging the gap	Palm Cove, Australia	25-30 August, 2001
Process validation for biologics	Berlin, Germany	5-7 September, 2001
Immunogenicity of therapeutic biologicals products	Bethesda, U.S.A.	31.October-2 November, 2001
Advancing science & elimination of the use of lab animals	Utrecht, Netherlands	12-14 November, 2001
	2002	
Laboratory correlates of immunity to influenza,	Bergen, Norway	2-3 May, 2002
Foot & Mouth disease: control strategies	Lyon, France	2-5 June, 2002
IABS Symposium on the eradication of infectious disease	Paris, France	27 July-1 August, 2002
Vaccines for OIE list & emerging animal diseases	Ames, Iowa, U.S.A.	16-18 September, 2002
	2003	
PDA/IABS Scientific consideration for comparability of biopharmaceuticals	Prague, Czech Republic	27-28 February, 2003
3rd International Symposium on fish vaccinology	Bergen, Norway	9-11 April, 2003
Development in therapeutic cancer vaccines	Los Angeles, U.S.A.	27-29 April, 2003

INTERNATIONAL ALLIANCE FOR BIOLOGICAL STANDARDIZATION

International symposium on advances in transfusion safety	Bethesda, U.S.A.	4-6 June, 2003
State of the art analytical methods for characterization of biological products & assessment of comparability	Bethesda, U.S.A.	10-13 June, 2003
PDA/EMA European virus safety forum	Langen, Germany	29.September-1 October, 2003
Consideration of alternative licensing procedures for vaccines for minor species	Langen, Germany	29-31 October, 2003
2004		
Control of infectious animal diseases by vaccination	Buenos Aires, Argentina	13-16 April, 2004
Vaccine cell substrates 2004	Rockville, U.S.A.	29 June-1 July, 2004
2005		
Avian influenza	Paris, France	7-8 April, 2005
Polio Vaccine	Toronto, Canada	5-7 June, 2005
Rabies in Europe	Kiev, Ukraine	15-18 June, 2005
New diagnostic technology	St. Malo, France	3-5 October, 2005
Advances in transfusion safety	Sydney, Australia	11-13 October, 2005
2006		
New cells for new vaccines I	Miami, U.S.A.	28-29 September, 2006
Aquatic animals health	Bergen, Norway	9-12 October, 2006
Emerging diseases preparedness & implementation issues	Lyon, France	5-8 November, 2006
1st international conference of OIE reference laboratories and collaborating centers	Florianopolis, Brazil	3-5 December, 2006
2007		
Vaccination: a tool for the control of avian influenza	Verona, Italy	20-22 March, 2007
Rabies in Eurasia	Paris, France	27-20 May, 2007
New cells for new vaccines II	Miami, U.S.A.	17-19 September, 2007
V th IABS symposium on advance in transfusioal safety	Sao Paulo, Brazil	18-22 September, 2007
Animal Genomics for Animal Health	Paris, France	23-25 October, 2007
2008		
New cells for new vaccines III	Miami, U.S.A.	28 September-1 October, 2008
Stability evaluation of vaccines	Geneva, Switzerland	27-29 October, 2008

IABS ■ Rue de la Vallée, 3 ■ 1204 Geneva ■ Switzerland

INTERNATIONAL ALLIANCE FOR BIOLOGICAL STANDARDIZATION

Advances in transfusion safety
New cells for new vaccines IV
Viral safety & extraneous agents testing for veterinary vaccines
Protein particles and immunogenicity of therapeutic proteins: filling in the gaps in risk evaluation and mitigation

Alternatives to reduce animal testing in quality control of veterinary vaccines
Mode of action of adjuvants: implications for vaccines safety & design
Taking immunogenicity assessment of therapeutic proteins to the next level
New cells for new vaccines V: global perspective
Potency testing of vaccines: The way from *in vivo* to *in vitro*.

Post-licensure evaluation of vaccine safety: current status and future directions
Adventitious agents, new technology, and risk assessment
7th symposium on advances in transfusion safety
Reference standards for therapeutic proteins: their relevance, development, qualification + replacement
Alternative methods for human and veterinary rabies vaccine potency testing: state of the science and planning the way forward

Potential use of biomarkers of inflammation and of early immunological events to assess vaccine safety
Alternative to antibiotics in animal health, OIE
New cells, new vaccines - Protein to Product
Vaccines and diagnostics for transboundary animal diseases

Predictive markers of safety and immunogenicity of adjuvanted vaccines
Setting specifications for biotechnology products: facing evolving challenges

Challenges toward sound scientific regulation of cell therapy products
New technologies, new vaccines
1st IABS / FDA Statistical and data management approaches for biotechnology drug development
Human challenge trials in vaccine development: scientific and regulatory issues

2009

Cambridge, UK 6-7 July, 2009
Wilmington, U.S.A. 11-14 October, 2009
Annecy, France 25-27 October, 2009
Bethesda, USA 12-13 November, 2009

2010

Buenos Aires, Argentina 18-19 February, 2009
Bethesda, U.S.A. 29-30 April, 2009
Langen, Germany 10-11 June, 2010
Wilmington, U.S.A. 10-13 October, 2010
Langen, Germany 1-3 December, 2010

2011

Barcelona, Spain 27-28 April, 2011
Baltimore, U.S.A. 19-20 May, 2011
Singapore 15-17 July, 2011
Bethesda, U.S.A. 20-21 September, 2011
Ames, Iowa, U.S.A. 11-13 October, 2011

2012

Baltimore, U.S.A. 10-11 May, 2012
Paris, France 26-28 September, 2012
Wilmington, U.S.A. 17-20 March, 2012
Ames, Iowa, U.S.A. 17-19 September, 2012

2013

Rockville, U.S.A. 18-19 April, 2013
Bethesda, U.S.A. 25-26 September, 2013

2014

Kyoto, Japan 7-8 March, 2014
Wilmington, U.S.A. 23-26 March, 2014
Rockville, U.S.A. 27-28 August, 2014
Strasbourg, France 29 September-1 October, 2014

INTERNATIONAL ALLIANCE FOR BIOLOGICAL STANDARDIZATION

International regulatory endeavor towards sound development of human cell therapy products
Consistency approach and alternative methods: towards non-animal-based testing in vaccine development and QC
Where are we in our understanding of the association between narcolepsy and 2009 adjuvanted influenza A (H1N1) vaccines?
2nd IABS / FDA statistical and data management approaches for biotechnology drug development
2nd Progress and challenges in protein particles and immunogenicity of biotherapeutics 2015: filling in the gaps in risk evaluation and mitigation

Harmonized safety monitoring of immunization in pregnancy: international consensus conference
IABS / NEBIH / PEI Emerging infectious diseases of animals: strategies in surveillance, control and eradication
3rd IABS / FDA Statistical and data management approaches for biotechnology drug development
3rd Cell therapy conference: manufacturing & testing

2nd Human challenge trials
IABS / FDA Next generation sequencing for adventitious virus detection in biologics
4th IABS / FDA Statistical and data management approaches for biotechnology drug development
1st IABS / NIST meeting on advancing analytics for biotechnology products

IABS / CIRM Cell therapy conference: manufacturing & testing of pluripotent stem cells
5th IABS / FDA Statistics workshop: statistical approaches for CMC development and lifecycle management of biotherapeutics and vaccines

2015
Tokyo, Japan 18-19 February, 2015
Egmond Aan Zee, The Netherlands 16-18 September, 2015
Geneva, Switzerland 23 October, 2015
Rockville, U.S.A. September 23-30, 2015
Rockville, U.S.A. 12-13 November, 2015

2016
Bethesda, U.S.A. 29-30 March, 2016
Budapest, Hungary 28-30 September, 2016
Rockville, U.S.A. 11-12 October, 2016
London, United Kingdom 2-3 November, 2016

2017
Rockville, U.S.A. 28-30 September, 2017
Rockville, U.S.A. 26-27 October, 2017
Rockville, U.S.A. 30 October-1 November, 2017
Bethesda, U.S.A. 6-8 November, 2017

2018
Los Angeles, U.S.A. 5-6 June, 2018
Rockville, U.S.A. 26-28 November, 2018

IABS ■ Rue de la Vallée, 3 ■ 1204 Geneva ■ Switzerland
