IABS Newsletter – N°1

www.iabs.org

FEBRUARY 2024

[IABS 2024 Best Wishes](#) - [President Column](#) - [IABS Upcoming Events](#) - [IABS Past Events](#)

Welcome to the next iteration of the **IABS Newsletter**. Although we have not published a newsletter recently, we are exploring a **new e-version** in 2024. The goal of this style of newsletter is to share headlines or brief reports with links to **in-depth articles** or supplemental text for individuals interested in the topic or seeking additional information.

As an example, see the President's Column above. We hope you like this new format, and are open to any and all suggestions. Feel free to send any comments to secretariat@iabs.org

Newsworthy articles for future editions are also welcome.

IABS Meetings Recent Outcomes

Meeting report: Enabling the Evaluation of COVID-19 Vaccines with Correlates of Protection

3Rs implementation in veterinary vaccine batch-release testing: Current state-of-the-art and future opportunities

2022

Workshop & Webinars

Meeting report: 3Rs Implementation in Veterinary Vaccine Batch-Release Testing: Current State-of-the-Art and Future Opportunities

[Read the meeting report](#)

IABS Meeting - Maintaining the Quality of Vaccines through the Use of Standards: Current Challenges and Future Opportunities

Meeting recommendations: Maintaining the Quality of Vaccines through the use of References Standards Current Challenges and Future Opportunities

[Read the recommendations](#)

IABS Meeting - Vaccination Strategies to Prevent and Control HPAI : Removing Unnecessary Barriers for Usage

Meeting recommendations: High Pathogenicity Avian Influenza Vaccination Strategies to Prevent and Control HPAI

[Read the recommendations](#)

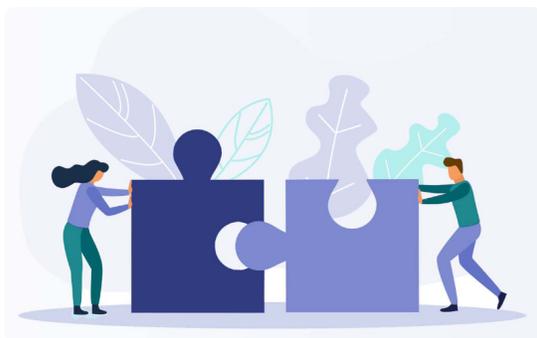

Upcoming Events

SAVE THE DATE : Vaccination and Surveillance for HPAI in Poultry : Current Situation and Future Perspectives

October 22-24, 2024
Paris, France

[Learn more](#)

SAVE THE DATE :
**IABS 10th Annual Statistics
Workshop**
November 2024

[Learn more](#)

SAVE THE DATE : **Avoiding
Antimicrobial Resistance: Veterinary
use of Phages for Prevention,
Therapy and Control of Bacterial
Infections**

November 19-20, 2024
Brussels, Belgium

[Learn more](#)

SAVE THE DATE : **4th Conference on
Next Generation Sequencing for
Adventitious Virus Detection in
Biologics for Humans and Animal**

December 3, 4 & 5, 2024
Frankfurt, Germany

[Learn more](#)

IABS Call for Volunteers

IABS is an organization run by volunteers and a small staff in Lyon, France. As such there are opportunities on Committees that available to interested parties. If you would like to receive further information, please contact our secretariat by email: secretariat@iabs.org

Biologicals: IABS Scientific Journal

Biologicals is a scientific journal that provides a modern and multidisciplinary international forum for publishing peer-reviewed original papers, reviews, and letters relevant to regulatory science as it relates to the development, production, quality control, and standardization of biological products for human and veterinary products derived from novel and established biotechnologies.

Our vision is to provide a forum for the introduction and discussion of scientific topics which impact innovation, lifecycle management, and regulatory strategy. As with most journals, we are dependent on volunteers to serve as members of our editorial board, as well as scientific reviewers.

[Contact Biologicals](#)

Biologicals is **recruiting volunteers** with a **strong scientific** and/or **regulatory background** in the **development and/or lifecycle management of biological products**. We invite you to **join the Editorial Board** or contribute as a scientific reviewer of a dynamic and influential journal. If you are interested, please **contact** the Editor-in-Chief, [Dr. Norman Baylor](#)

IABS Partnerships

**HUMANE SOCIETY
INTERNATIONAL**

IABS has been collaborating with Humane Society International (HSI) under the umbrella of the Animal Free Safety Assessment (AFSA) collaboration since 2021 to promote the implementation of non animal based testing within the human and veterinary vaccines' batch release testing.
