

International Alliance for Biological Standardization

IABS Newsletter – N°2

www.iabs.org

APRIL 2024

[In Memoriam](#) - [President Column](#) - [IABS Upcoming Events](#) - [IABS Past Events](#)

Welcome to the second edition of **IABS' revamped Newsletter**. We have had positive feedback from the first issue and plan to continue providing this resource for those interested in following the activities of the Alliance. The goal of the newsletter is to share headlines or brief reports with links to **in-depth articles** or supplemental text for individuals interested in the topic or seeking additional information.

We are open to any and all suggestions related to newsletter content. Feel free to send any comments to secretariat@iabs.org.

Newsworthy articles for future editions are also welcome.

IABS Meetings Recent Outcomes

IABS Meeting – The Role of Real-World Evidence for Regulatory and Public Health Decision-making for Accelerated Vaccine Deployment

Meeting Report: The Role of Real-World Evidence for Regulatory and Public Health Decision-making for Accelerated Vaccine Deployment

IABS Call for Volunteers

IABS is an organization run by volunteers and a small staff in Lyon, France. As such there are opportunities on Committees that available to interested parties. If you would like to receive further information, please contact our secretariat by email: secretariat@iabs.org

Biologicals: IABS Scientific Journal

Biologicals is a scientific journal that provides a modern and multidisciplinary international forum for publishing peer-reviewed original papers, reviews, and letters relevant to regulatory science as it relates to the development, production, quality control, and standardization of biological products for human and veterinary products derived from novel and established biotechnologies.

Our vision is to provide a forum for the introduction and discussion of scientific topics which impact innovation, lifecycle management, and regulatory strategy. As with most journals, we are dependent on volunteers to serve as members of our editorial board, as well as scientific reviewers.

[Contact Biologicals](#)

Biologicals is **recruiting volunteers** with a **strong scientific** and/or **regulatory background** in the **development and/or lifecycle management of biological products**. We invite you to **join the Editorial Board** or contribute as a scientific reviewer of a dynamic and influential journal. If you are interested, please **contact** the Editor-in-Chief, [Dr. Norman Baylor](#)
