Biological Standardization

## 9<sup>th</sup> Annual IABS Statistics Workshop Applying Statistics and Data Science to Evolving Technical and Regulatory Paradigms

November 7-9, 2023

University of Maryland - IBBR, Rockville, MD, USA

### **Yukun Ren**

CMC Statistician Expert Leader

Sanofi

49 New York Ave  
Framingham, MA 01701, USA

E-mail: [yukun.ren@sanofi.com](mailto:yukun.ren@sanofi.com)

Yukun Ren is a dedicated professional currently employed at Sanofi, where he plays a crucial role in offering statistical expertise to bolster global CMC operations. His responsibilities encompass a wide range of areas including BioAnalytics, Mammalian Platform, Formulation, and the Genomic Medicine Unit. With extensive knowledge and a wealth of experience, Yukun excels in providing statistical support in Design of Experiments (DoE), Quality by Design (QbD), analytical method development, stability analysis, specification setting, and bioprocess development, among others. Before his tenure at Sanofi, Yukun worked at Pfizer (consultant) and Genzyme from 2001 to 2011. Yukun's educational background includes a Bachelor of Science degree and a Master's degree in Forest Products, as well as a Master's degree in Applied Statistics.
