Dr. Bryce Lunt holds a PhD in Biological Sciences from the University of Pittsburgh. Dr. Lunt is currently a Principal Scientist at Zoetis, specializing in Anti-Infectives. At Zoetis, Dr. Lunt contributes to the Antibacterial Susceptibility Surveillance Team and oversees in vitro lab testing of novel antibacterial candidates. Over the past 16 years, he has been involved in various phage-related initiatives, including the HHMI SEA-PHAGES program and phage hunting to treat American Foulbrood and Fireblight. Additionally, Bryce leads a team focused on phage discovery.
