

Daniel Gaudry

PhD

Advisor to the Board
USA & France

Daniel Gaudry served as IABS Secretary from 1985 to 2020 and as President from 2008 to 2010.

In 1968, Dr. Gaudry started his career at Institut Mérieux, Lyon, France. He was instrumental in the development and the management of the avian product line at Institut Mérieux, then Rhône Mérieux, and finally Merial, both of which derived from Institut Mérieux. Among Dr. Gaudry's professional milestones was the set-up and initial development of the company's U.S. veterinary subsidiary in Athens, Georgia in the 1980s. Since that time, the company has grown to become a major player in the veterinary field in the U.S. During his years at Rhône Mérieux, Dr. Gaudry succeeded in obtaining the first USDA-approved rabies vaccine for use by the subcutaneous route, a significant accomplishment in the field of veterinary medicine in the U.S.

In 1981, on the recommendation of Dr. Charles Mérieux, Dr. Gaudry was elected member of the IABS Board of Directors. Dr. Gaudry received his Doctorate in Veterinary Medicine (DVM) at the Ecole Nationale Vétérinaire of Toulouse and subsequently specialized in immunology and obtained a degree from the Université de Lyon in 1969. Dr. Gaudry has American and French dual citizenship and spends his time between France & U.S.
